Objective

Motivated professional with hands-on experience using ChatGPT, Gemini, and Claude for research, analysis, content creation, and problem-solving. Interested in prompt engineering and eager to apply AI tools effectively in real-world business tasks.

Education

- **B.E. Computer Science and Engineering**, Jaishriram Engineering College, Tirupur (May 2026)
- **HSC (2022) and SSLC (2020)**, Gandhi Vidhyalaya Matriculation School, Tirupur

Skills

- **AI Tools:** ChatGPT, Google Gemini, Claude, Microsoft Copilot, Perplexity
- **Prompting:** writing clear, structured prompts; role-based and step-by-step prompting; refining prompts when the first answer is not good enough; reusable prompt templates
- **Using AI for:** web research, PDF summarizing, Excel/CSV help, email and content drafting, data extraction, translation, coding help
- **Office Tools:** MS Word, Excel
- **Technical:** HTML, CSS, JavaScript, React JS, SQL, Java

Projects

- **Chickpea Disease Detection (Hybrid Deep Learning):** A project using AI image detection to help farmers find plant diseases early.
- **Bus Ticket Reservation System:** Developed a bus booking application with seat booking, user login and bus search.
- **Distance Measurement System:** Built a system using Arduino and an ultrasonic sensor that measures object distance in real time and shows it on an LCD.

Internships and Experience

- **Web Development Intern at Sparkout Tech Solutions:** Gained hands-on experience in front-end development and responsive web design.
- **Business Development Intern at La Confianza Technologies:** Worked on client communication, lead generation and online research for business development.
- **Process Associate at Arrow Thought:** handled journal submissions and status updates on time.
- **InPlant Trainings :** BrainerySpot Technology, NXTLogics Solutions, Nitroware Technology , Gained practical exposure to Web Development and Full Stack Development.

Certifications and Workshops

- Diploma in Computer Applications (DCA)
- Workshops: Cyber Security, 5G Technology (Kongu Engineering College); React.js and Web Development (Altalya Solutions)

Declaration

I confirm that all the information mentioned above is accurate and genuine to the best of my Knowledge.
